

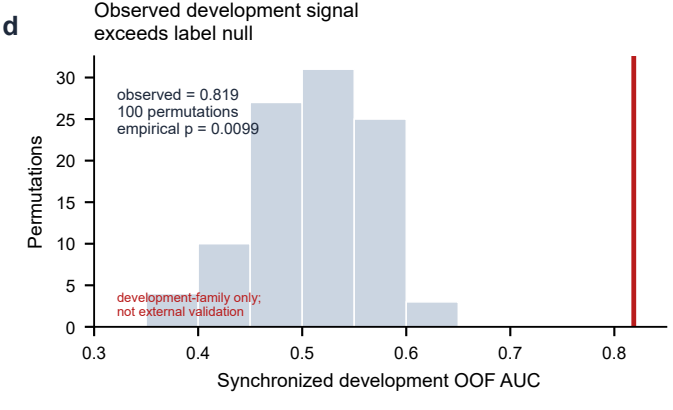
Locked transport stress tests

TSP: 140829 0.548; 249477 0.465. Stable ridge: 140829 0.541; 249477 0.524.

TSP, stable ridge and CORAL scored target rows before endpoint assessment.

CORAL*: 140829 0.544; 249477 0.421; target labels used only after lock.


*batch-level transductive stress test, not single-sample deployment or clinical validation.
